## Native Collagen Mask & Hyaluronic Acid

**Skin Concerns** 

Dehydrated skin Fine lines and wrinkles Uneven skin tone Irritated skin

Skin Need

## Regeneration

The Benefits

Provides moisturization
Fills and smoothes lines and wrinkles
Plumps
Harmonizes skin tone
Regenerates and soothes (reduced redness)
Suitable for all skin types

## Replenishes moisture and smoothes lines and wrinkles.

## Composition

Native collagen fibers form a three-dimensional network. The highly concentrated native collagen has a high waterbinding capacity, ensuring a continuous supply of the active ingredients and an intensive moisture transfer to the skin. Native collagen peptides are recognized in the skin, act as signal for collagen stimulation and promote skin regeneration and repair. Native collagen molecules strengthen the skin's moisturebinding capacity, support the smoothening of wrinkles and balance the skin's surface for a healthy protection. Hyaluronic Acid – Sodium Hyaluronate. Hyaluronic Acid is capable of binding up to 4000x its own weight in moisture. It is one key part of the connective tissue filling gaps between skin cells. It acts as a gel cushion by padding the skin from within, providing skin volume and make it look firmer.

Inci

- $\cdot \, \text{Collagen} \cdot \text{Hydrogenated Polyisobutene} \cdot \text{PPG-15 Stearyl Ether} \cdot \text{PEG-40 Sorbitan Peroleate}$
- · Di-C12-13 Alkyl Malate · Sodium Hyaluronate · BHT · CI 77510 (Ferric Ammonium Ferrocyanide)

Scientific Data

- +59% Increase in skin moisture (Corneometry, activated with Activation Liquid 17SF)1
- -38% Decrease in skin roughness (PRIMOS, activated with Activation Liquid 17SF)<sup>1</sup>
- **-27%** Reduction of redness (Chromometry, activated with water)<sup>2</sup>

**Dermatologically tested** 

Color

Blue

**Shelf Life** 

3 years in original, unopened packaging

Storage

Room temperature. Protect from dampness and direct sunlight exposure
